RE: Independent check of the Todd-Cabana Tunnel (T06)

Dear Ms. Rajlic,

This letter confirms that International Bridge Technologies has completed an independent check of the **Todd-Cabana Tunnel (T06)**, for the Windsor Essex Parkway project.

We have completed our review and provided comments based on the plans submitted in the **ICT Submission drawings** dated **15 August 2012**, and are satisfied that the structure will meet the requirements of the project agreement provided the following comments are addressed:

Acceptance of Tunnel Fire Design Criteria as included in document #285380-03-109-0004 r3 by HMQ

The design, methodologies and assumptions are consistent with Good Industry Practice.

We intend to issue a certificate for the structure, subject to review of the final plan set and resolution of the above comment.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read 'ZMcGain', written over a horizontal line.
